CRYSTALLIZE ANALYTICS®

Automated $ Audit®

# Accelerated $ Audit

Focus Feature Overview

Built-In Auditor Intelligence: Empowering Audit Processes

Introducing **Accelerated Audit™**, a new 'lite' feature of Crystallize Analytics' Automated Audit® software, that allows your finance team to identify and focus on correcting problem areas or areas of non-compliance before you begin your formal audit.
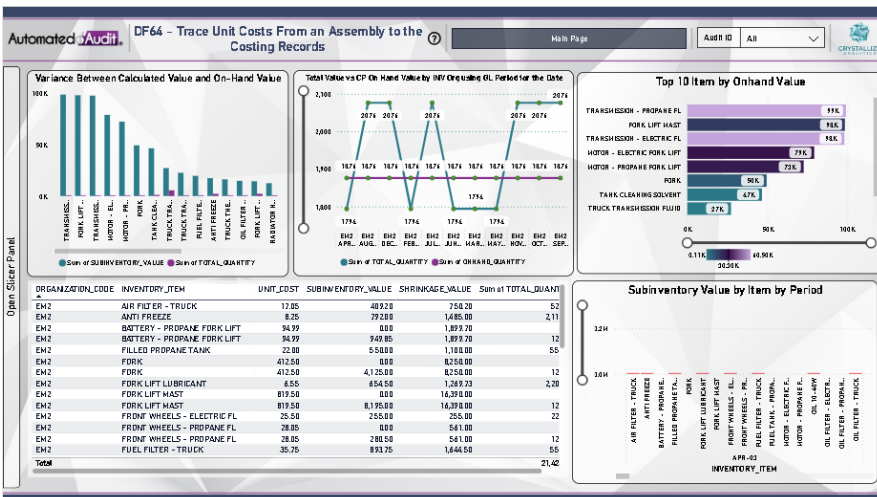

As Easy as 1→2→3

Connection
- Direct Database Connection
- 60+ DFs Can Run Simultaneously

Clarity
- Instant Insights
- Graphs & Interactive Visualizations
- Filter By Business Process

Confidence
- On-Demand Analysis
- Actionalble Findings
- No Suprises During Formal Audit

Save time, relieve overburdened talent, gain analytic insight and mitigate risk in the pre-audit stage and also gain insights from the master and transaction data patterns in your Procure-to-Pay, Order-to-Cash, Demand-to-Build, and Report-to-Record business processes.

By automatically identifying which proprietary Data Facets™ (DFs) will yield pertinent data for each unique organization, running the tool provides immediate insights with minimal overhead requirements.

Data Facet™ (DFs): tests designed to detect material misstatement or fraud at the assertion level. **Accelerated Audit** can run 60+ assertion tests with the click of a button.

Get a Snapshot of Your Data Prior to the Official Audit
